

**Use eClaims to:**

Create and send electronic insurance claims in minutes, adding attachments directly from Easy Dental.

**Faster claims:**

For faster claim submissions, eClaims is designed to work in Easy Dental without the use of bridges or print drivers.

## EASY DENTAL ECLAIMS

Reduce reimbursement time with electronic insurance claims

Insurance claim reimbursement can represent more than half of the revenue for a typical dental office. The paper-based claims process can take weeks—submitting claims by mail, correcting and resubmitting denied claims, waiting for insurance carriers to approve payment, then more waiting for checks to arrive by mail.

Your practice may have to wait up to eight weeks for reimbursement of each paper-based claim. Waiting that long for much of your revenue constrains your monthly cash flow.

Easy Dental eClaims helps simplify and accelerate the insurance claims process. You can submit your claims and attachments electronically, directly from Easy Dental, without waiting for postal delivery.

### IMPROVE THE CASH FLOW FOR YOUR PRACTICE

Easy Dental eClaims can cut reimbursement time from a few weeks to a few days. Electronic claims go immediately to your insurance carriers. You can easily attach digital X-rays and charts to each claim.

Before sending, eClaims helps validate that a claim is complete and helps you avoid delays and rejections. It also tracks claims from submission through reimbursement, so you know if a claim was received.

**CALL US TODAY  
AT 800.7686464**

Ask how to get discounts when you bundle your eClaims with Easy Dental Service Bundles.

**DID YOU KNOW?** Our Easy Dental Service Bundles are packed with eServices—powerful tools connected to Easy Dental that help boost your front office productivity and streamline your workflow.

With the Easy Dental Plus and complete service bundles you get unlimited electronic eclaims at no additional cost.

eClaims helps automate many insurance claim related tasks, such as integrated submission process, claim tracking, broad connectivity, claim validation and automatic updates.

## KEY BENEFITS

**Save time.** Send electronic claims and add attachments without leaving Easy Dental. Check claim status in real time without calling insurance carriers.

**Simplify workflow.** Quickly find the provider, image, diagnosis and narrative you need to complete a claim.

**Avoid rejections.** Check claims for necessary components and correct omissions before sending them. Automatically update Easy Dental when you modify a claim.

**Improve accuracy.** Receive real-time notification when an insurance carrier accepts your claims and collect an accurate patient portion instantly.

**Expedite payments.** Speed up payments from insurance carriers and accelerate your patient payment collections in turn.

**Reduce manual work.** Automatically print and mail claims that cannot be sent electronically.

## KEY FEATURES

### FULLY INTEGRATED PROCESS

Submit claims and attachments with fewer steps. Automatically update claim modifications in Easy Dental.

### CLAIM VALIDATION

Validate every claim for completeness before sending. Receive rejection warnings and corrective actions to help avoid delays.

### REAL-TIME CLAIM TRACKING

Track unsent, delayed and rejected claims in real time. Stay informed with detailed submission reports on the status of your claims.

### BROAD CONNECTIVITY

Connect to one of the largest list of payors in the dental industry, allowing you to send more claims electronically.

### ELECTRONIC EOB STATEMENTS

Receive eEOBs directly into Easy Dental from participating carriers. From the same window where you process eEOBs, you can send billing statements for patients with an outstanding balance.
